

The Federal Communications Commission

Dear The Federal Communications Commission,

I urge you to reject a flat fee proposal that would change how contributions are made to the Universal Service Fund. This is just one more Republican scheme to shift the tax burden from the wealthy to working people.

I use my wireless phone for safety, security and convenience. I don't want to lose these benefits so that big businesses can pay less than their fair share. I urge you to REJECT the outrageous proposal to move the USF collection system to a flat-fee.

Sincerely,

William Toohey
